The new version is shortened and generalized version of original paper to which we took strong exception.

Purpose of the paper is not clear and terms are very vague.

We recommend:

a) An entirely new paper be written following a clearly-stated purpose for the agreement.

b) the CIA Air Ops Center be designated the NRO Ops Center and source of staffing vis-a-vis the JCS/JRC.

c) Only in times of actual hostilities shld there be an automatic transfer to the JRC of the NRO opnl assets. During Cuban tension period Cuban overflights were considered the responsibility of the NRO, not the JCS.

NRO review(s) completed.
